

FREE

Stormwater Management Workshop

for Farms & Rural Properties

Owners and operators of farm and rural property in the capital region are invited to attend a free stormwater management workshop. Learn how to incorporate green infrastructure and best practices to help reduce pollution in our waterways.

Participants will gain knowledge and practical tools on the following topics:

- Climate change projections in the capital region
- Balancing drainage & retention goals
- Soil health, and water
- How to slow, sink, spread and store rainwater on rural landscapes
- Drainage basics and water pollution prevention
- Using GIS tools for planning

Presented by Tayler Krawczyk (Hatchet and Seed) and Foster Richardson (Hilldown Farm).

Workshop Dates & Locations:

JAN 18 10:00 am to 4:00 pm
Mary Winspear Center
Room 2A
2243 Beacon Ave, Sidney, BC

JAN 23 10:00 am to 4:00 pm
Colwood Community Hall
Main Hall
2219 Sooke Rd, Victoria, BC

Registration is required and space is limited. Lunch will be provided.
