

July 9, 2019

Clover Forcemain: Dallas Road Temporary Closure

Dallas Road will be closed 24 hours/day from Monday to Friday for pipe installation during July and August in the narrow section between Government and Douglas streets. Due to the alignment of the pipe in the centre of the road, excavation, installation, and backfilling will require a full road closure. A detour along Government and Niagara streets will be in effect. Dallas Road will be open on the weekends.

Vehicle access to properties will be restricted during work hours and traffic control personnel will assist residents with access to their property outside work hours.

The Clover Forcemain is over 80% complete and this is the last section for pipe installation. Construction of the cycle path will begin this summer. All construction activities for the Clover Forcemain including road restoration and construction of public amenities are anticipated to be complete by summer 2020.

What to Expect

- “No parking” zones will be required to accommodate construction and detour traffic. These zones will be limited as much as possible.
- Emergency service vehicles will be given access at all times.
- Pedestrian access will be maintained on the north side of Dallas Road.

Work Hours

- Monday to Friday from 7:00 a.m. to 7:00 p.m.

About the Clover Forcemain

The Wastewater Treatment Project includes construction of a pipe which will transport wastewater from the upgraded Clover Point Pump Station to the McLoughlin Point Wastewater Treatment Plant. This pipe, the Clover Forcemain, will run along Dallas Road from Clover Point to Ogden Point, where it will connect to the cross-harbour undersea pipe.

Any questions about the work, please contact the Project Team.
